The Leader in Data Quality Management Solutions

## TNI/NELAC AUTOMATED AUDIT SOFTWARE

### LABORATORY AUDIT SOFTWARE – TNI VERSION

- Audit any laboratory for TNI/NELAC compliance
- Paperless auditing system
- Contains an electronic version of the TNI audit checklist
- TNI standards are hyperlinked to checklist questions
- Use for internal audits to help keep your lab in compliance
- Currently used by TNI Accrediting Bodies to manage their auditing tasks
- Accommodates Single or Multiple Auditors
- Email alerts for upcoming audits
- ISO, DoD, ASTM, and other versions also available
- Import your own checklists with state or project-specific standards

LDC's Automated Audit Software (AAS) enables users to capture all the details of your laboratory auditing tasks in fully electronic format. Our software stores all findings, corrective actions and implementation dates in a searchable database that can easily be queried for trends and summary findings. Add on our PT and Certification Management Database for a complete certification management system.
